KEY	BOX	DESCRIPTION	QTY
1-2	1	3" WC Replacement Blade	2

ASSEMBLY INSTRUCTIONS

1. Turn engine key off, remove key and unplug the spark plug.
2. Open the large feed chute.
3. Before removing the bolts that mount the blades, place paper towels in the area opening between the drum and the drum housing. This will prevent bolts from dropping into the drum housing.
4. Remove the first 4 bolts.
5. BEFORE REMOVING THE LAST BOLT BE SURE TO SUPPORT THE BLADE FROM SLIDING DOWN INTO THE DRUM. More paper towels or a shop towel does a good job.
6. Remove the blade, reverse it to the new sharp edge and reinstall it
7. Use Loctite on the bolt threads when replacing bolts.
8. Use the supplied T-Handle tool to remove and replace bolts.
9. Wear protective gloves, the blades are very sharp.
10. Remove the paper towels, any paper left in the chipper will be cut up on the next running operation.

ACKNOWLEDGEMENT OF RISK AND RELEASE OF LIABILITY

The use of any equipment, including this one, involves the potential risk of injury. Apart from any warranty claim that might be presented for a claimed defect in material or workmanship of the product, you accept and assume full responsibility for any and all injuries, damages (both economic and non-economic), and losses of any type, which may occur, and you fully and forever release and discharge Titan, its insurers, employees, officers, directors, associates, and agents from any and all claims, demands, damages, rights of action, or causes of action, present or future, whether the same be known or unknown, anticipated, or unanticipated, resulting from or arising out of the use of said equipment.

This equipment must be used with care by capable and competent individuals under supervision, if necessary.
